The bright living room flows nicely into the kitchen and dining area, which offers plenty of cupboard and drawer space along with a pantry for extra storage. The dining area opens directly to the backyard, making it perfect for indoor-outdoor living. The main level includes a recently renovated full bathroom and two generously sized bedrooms, including the primary with a two-piece ensuite. The fully developed basement features two additional bedrooms, a spacious living room, laundry area, and access to the finished double car garage. Recent updates include vinyl plank flooring (no carpet throughout) and new shingles installed in June 2025. The backyard is large and private with mature trees, a shed, and a firepit area, ideal for relaxing or entertaining.
