The front entry opens into the main living space finished with vinyl plank flooring that runs throughout. The kitchen is the focal point with espresso cabinets, stainless steel appliances, a pantry, and an eat-up island that gives you extra prep space and a spot for quick meals. There's also no shortage of storage with ample cabinetry. Across from the kitchen, the dining area is set under a chandelier and features double doors that lead straight out to the deck. The open concept continues into the living room and boasts a gas fireplace and a large window that brings in tons of natural light. At the back, a second entrance from the garage features a walk through pantry that adds everyday function, especially for unloading groceries. A half bath rounds out the main floor. Upstairs, the primary bedroom offers plenty of space to unwind. The ensuite is well laid out with a double vanity, a tiled walk-in shower, and a walk-in closet! The rest of the upper level includes a comfortable loft area that works well as a second living space (could be converted into a bedroom), along with two additional bedrooms, a full bathroom, and conveniently located laundry. Out back, the yard is fully fenced with garden beds already in place and a deck that's ready to enjoy. The triple 26'x32'g heated garage gives you all the room you need for vehicles, storage, or toys.
